

FOX VALLEY

A Campus of the University of Wisconsin Colleges

Environmental Studies Certificate (Worksheet)

- The Environmental Studies Certificate provides an interdisciplinary approach to the study of environmental issues, encompassing aspects of biological and physical science, natural resources, and environmental ethics and economics.
- Individuals wishing to complete this program must successfully complete the required 17 credits with a minimum (2.0) grade point average.
- A maximum of three credits may be transferred into the certificate program from institutions outside of the UW Colleges.
