Thanksgiving is more than turkey and all the trimmings!

While you watch the football game and have a slice of pumpkin pie, remember all that you have to be thankful for on this day of plenty.

According to the FDA, if you get a new tattoo today, you should wait 12 months before donating blood, in case of infection.

The diagnosis is taresthesia.

- 1) Your foot is asleep or 2) you have hiccups or 3) you have black lung. *See below for answer*

We need donations!

Do you have any gently-used, recently-published paperback

books that you would like to donate to the library? We will either add them to our Browsing Collection or sell them at our next book sale to raise money for more books, DVD's and videos.
